a xylem brand

Portable, Benchtop & Online meters for: -

- pH
- Conductivity
- TDS
- Salinity
- Dissolved Oxygen
- ORP
- Turbidity
- Complete system for BOD and COD analysis
- Spectrophotometers

IQ SensorNet XT – Online Systems for Continuous Wastewater Monitoring

Only WTW can offer this combination of protection, flexibility and precision:

- ✓ 3-year warranty
- ✓ Ultrasonic cleaning on some sensors
- ✓ System-wide lightning protection
- ✓ Modular expansion from 1 to 20 sensors
- ✓ Easily stack modules, no extra wiring
- ✓ One cable for power & communications
- ✓ Factory-calibrated optical DO cap (2-yr warranty)
- ✓ USB interface, usable for security
- ✓ System redundancy for backup control

Parameters: Temperature · DO (electrochemical) · DO (optical) · pH · ORP · Conductivity · Salinity · Turbidity · TSS · Ammonium, Nitrate · Potassium · COD · TOC · BOD · DOC · SAC

Let's Solve Water

Solutions for Water quality monitoring and collection for Ocean & Coastal, Waste Water, Surface Water and Ground Water

Develops and manufactures sensors, instruments, software and data collection platforms for environmental and coastal water quality monitoring and testing.

AANDERAA

Manufactures sensors, instruments and systems for measuring and monitoring in markets including aquaculture, environmental research, marine transportation, oil and gas, road and traffic and construction.

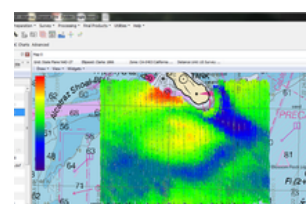

Advancing environmental science in over 100 countries, manufactures affordable, reliable acoustic Doppler instrumentation for water density measurement in oceans, rivers, lakes, canals, harbors, estuaries, and laboratories.

HYPACK

HYPACK is a leading provider of hydrographic survey data acquisition, processing, and visualization software for ocean, coastal and surface water applications.
